We used Cleanworks when our septic backed up into our basement in May 2023. From meeting with our insurance adjuster to moving all of our belongings back in when the project was complete; Cleanworks was there for us every step of the way. The communication was amazing - everyone that we worked closely with (Brendan, Gene, Kevin) was only a text or phone call away and I never had to wait for a response. The final results speak for themselves and we are so beyond happy with this space and all of the high quality work that went into cleaning, reconstruction, and making this space our own again.

Kevin and his team were great! They removed our cabinets and did water clean up. I'm confident we won't have anymore issues! They directed us to all the right people for our counter tops (Compass Stone and Tile, Cranston) and cabinets (New England Custom Kitchen cabinets, North Kingstown). Couldn't be happier with Cleanworks!

I had a pipe burst in my basement at a rental property and flooded everywhere. Right after I called Clean works they responded extremely quickly to mitigate any further damage. I ended up filing a claim and they were able to walk me through that process. They made it convenient. I didn't have to be at the property while they did the work and when I went to check later on it was done so well. Highly recommended.

5 stars all the way! Truly so informative and responsive from the beginning. Truly never thought an emergency water damage could turn into such a smooth and easy process. They took care of everything and every detail! I would recommend to any and everyone who is looking to be stressfree and have true professionals in their home help them out! Thank so much beyond grateful for your amazing team!

My mom's basement was flooded about 3 weeks ago and Cleanworks came that same night in that heavy rain and cleaned up the water and placed all the equipment needed to dry it up. The workers were so understanding, polite and knowledgeable. They had to gutter the whole basement and now in the process for reconstruction. Even though it caused my mom stress they made the process very easy and in a timely manner. Kevin is one amazing guy and reassured my mom that everything would be okay. Thank you Elvira!!!

Kevin and his crew at Cleanworks did an extraordinary job repairing my Mom's kitchen after a large water leak. They matched cabinetry and replaced flooring. My mother suffers from dementia, anything out of the ordinary throws her. Kevin worked with her caregivers to arrange convenient scheduling and minimum interaction with multiple people due to Covid. All I can say is these were extraordinary circumstances that took an exceptional amount of patience and empathy to succeed. Thank You Cleanworks for going far beyond your "scope of work"!

When my hot water heater burst and flooded my basement with 2-3 inches of water, Cleanworks crew were on the scene within the hour to take up all the water and dry the place out. They then came back to rip up all damaged flooring. Including tile and carpet and. They took care of dealing with my home owners insurance claim. And we are now in the restoration process. A great company that I would highly recommend and would definitely use again.

Ryan directed our emergency clean up. They were superb, and I would say expensive... but worth it!!! It was a smelly mess but now looks new. I recommend this firm!!!
